

Over the last week Positive Action Group sent out a questionnaire to all candidates standing in the Douglas North and Douglas South byelections.

The intention was to survey candidates views in a manner that allows voters to easily compare against their own opinions - as good as Manifestos sometimes are, they are rather difficult to compare side by side.

To make the questionnaires as simple to complete as possible they feature a series of straightforward statements against for which the candidates may select one of six preset responses:

- Strongly Agree
- Agree
- Neutral
- Disagree
- Strongly Disagree
- Don't Know
