Following [our meeting this month](#) , tomorrow marks the deadline for your comments on the future of Manx public broadcasting services.

Should Tynwald have a commitment to public service broadcasting?

Should Manx Radio remain the Island's national broadcaster?

The committee on public broadcasting is made up of chairman Richard Ronan MHK, Onchan MHK Zac Hall and Speaker of the House of Keys Steve Rodan. It was set up in December in the wake of a Treasury report into the public broadcasting subvention which was carried out in July 2012. They will look at the policy, delivery, cost and scope of public service broadcasting before reporting back to Tynwald.

Raise your concerns in writing to:
