The October 2013 PAG Public Meeting e-Gaming - "Assessing the Value" proved to be a lively event with robust comment and discussion following this power-point presentation by Peter Greenhill, CEO e-Gaming Development (DED), supported by Howard Quayle, MHK responsible for e-Gaming (DED).

The audience of about 60 people seemed evenly divided as to the undoubted value of this developing sector of the IOM economy balanced by a genuine concern and disquiet about promoting gambling.
